

EPSON
EXCEED YOUR VISION

Huge Success

Monday—5th September

Despite the atrocious weather, the Epson Festival of Print event held at Computerworld Wales offices in Cardiff, turned out to be a huge success.

This was an opportunity to see the new Epson Workforce Plus range of printers, which offer all the capabilities of a colour laser , at prices you would normally associate with basic inkjets.

"I was shocked at how many people turned up, considering what the weather threw at us" said Shaune Parsons . " everyone that ventured out in those conditions deserve a medal" he continued.

The event included a working comparison between a Samsung Colour Laser, a mid range HP Officejet and the Epson Workforce Plus WP-4515DN. In all but 1 category the WP-4515DN won hands down, and when you consider that was the size of the printer itself, **it was a resounding victory for Epson.**

For more information on the Epson range of Printers and Projectors contact you Account Manager on 029 2033 3000 or email info@cwwales.com.
